THE CHOICE OF PROFESSIONALS

**There's a reason why Harristone is the
#1 choice among architects and builders.**

G.S. Harris approaches creating stone to an art form. An art we've been perfecting for over 50 years. For our hallmark authentic-looking stone, we begin the process by scouring the country to find the most expressive and exceptional stones. From Southwestern deserts and glacially fed rivers to the rolling hills of America's heartland, our search for characteristic stone has taken us to some spectacular places.

After hand-selecting stones in a variety of sizes and shapes, we return to our manufacturing facility where we create custom-molds of each stone. It's during this casting process that our expert masons chisel, smooth and refine each stone pattern. As a result, Harristone's manufactured stones install quickly and easily, whether you're a professional mason or handling the job yourself.

COMMERCIAL

From malls to towering
apartment complexes,
Harristone has the perfect
stone for your project.

SUMMIT UINTAH LEDGESTONE

FLINT HILLS LUEDERS

SUMMIT CHIEF JOSEPH

CHABLIS UINTAH LEDGESTONE

Not only can Harristone help increase business, but the savings you'll see over natural stone translates to a major boost to your budget. Whether you're looking to stimulate growth with a commercial remodel or just breaking ground on a brand new project, Harristone is the smart way to add stylish curb appeal, without adding unnecessary expense.

STONE CHOICES

Explore the vast variety of classic and designer Harristone veneers.

ARCADIAN RIDGESTONE

WWW.HARRISTONE.COM

Our stone begins with the replication of Mother Nature's creation by seeking out the country's most beautiful and unique formations. From the mountains of Montana to Ohio's riverbeds, and our own majestic backyard in the Utah Canyon wilderness. These are the models which serve as inspiration for the world's finest precast stones and accessories — the Harristone collection.

CAPE COD CHIEF JOSEPH

CHIEF JOSEPH®

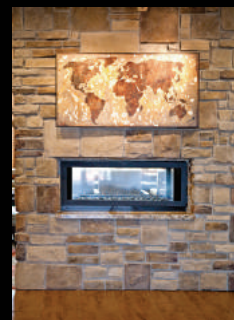

Inspired by stones from Montana rockslides, this roughly textured stone is ideal for creating beautiful stacked stone patterns. Pair it with rough-cut timber for a truly rustic look and feel.

SLATE DRY STONE

DRY STONE®

Stone is the oldest construction material known to mankind. The most ancient remaining Dry Stone® structures are scattered throughout the world, with Egyptian pyramids and Peruvian temples as world-class examples. Dry Stone® has been a successful building technique throughout the ages because of its unique range of benefits.

HARRISTONE® SEALER

Let professional-grade Harrystone Masonry Sealer protect and preserve the look and quality of your Harrystone designs for many years to come.

INSTALLATION

Easy to install and easy to maintain.

Harrystone is a tested and proven product. Please review G.S. Harris Co., Inc. Installation Specification and ICC Evaluation Service, Inc. Evaluation Report # ESR-1593, for allowable values and /or conditions of use for all materials presented in this document.

APPLICATION TO MASONRY

- 1.** On a clean surface, the veneer may be applied directly to a masonry backing without mesh. Painted or waterproofed masonry surfaces should be cleaned and sandblasted to provide a good bond surface.
- 2.** Apply Type-S (or equivalent) cement mortar at least ½" thick.
- 3.** Harristone Veneer.
- 4.** Brush, tool and rake the Type-S (or equivalent) mortar joint.

NOTE: All installations must comply with local building codes and manufacturer's specifications.

APPLICATION TO WOOD SUBSTRATE

1. Install structurally sound wood substrate.
2. Apply two layers of Grade-D building paper.
3. Attach 3.4 metal lath or #17 gauge, 1-1/2" woven wire stucco mesh.
4. Apply a scratch coat of Type-S mortar (or equivalent) approximately 1/2" thick over the metal lath or stucco wire.
5. Apply a 3/4" thick Type-S (or equivalent) mortar setting bed to the back of each Harristone and press the stone into place over a moistened scratch coat.
6. Brush, tool and rake the Type-S (or equivalent) mortar joint.

TECHNICAL SPECIFICATIONS

Harristone is continually tested by certified laboratories to ensure the integrity and quality of the finished product. The following tests have been conducted per the referenced test criteria or specifications. Harristone meets or exceeds ICC Evaluation Services, Inc. acceptance criteria for precast stone veneer. Harristone precast stone veneer complies with the 1997 Uniform Building Code™ (UBC), the 2012 International Building Code® (IBC), the 2012 International Residential Code® (IRC) and the 2013 Abu Dhabi International Building Code™ (ADIBC), 2016 California Green Building Standards Code (CALGreen) Title 24, Part 11, 2015, 2012 and 2015 ICC 700 National Green Building Standard™ (ICC 700-2015, ICC 700-2012 and ICC 700-2008).

Harristone Precast Stone Veneer is used as an adhered wall veneer.

- **Density:** (ASTM C567) 8-12 lbs. per sq. ft., based on 1⁵/₈" - 2⁵/₈" thickness
- **Compressive Tests:** (ASTM C192, ASTM C39)
- **Tensile:** (ASTM C190)
- **Flexural Strength:** (ASTM C348)
- **Shear Bond Test:** (ASTM C482)
- **Moisture Absorption:** (UBC Std. 15-5)
- **Freeze-Thaw:** (ASTM C67)
- Harristone meets ASTM e-136/UBC std. 2-1 non-combustible test.
- Harristone is a tested and proven product. See G.S. Harris Co., Inc. installation specification and ICC Evaluation Service, Inc. Evaluation Report # ESR-1593, for allowable values and/or conditions of use for all materials presented in this document.

PACKAGING

100 square foot flats (120 sq ft flats for Uintah LedgeStone, Chief Joseph®, LedgeStone, RidgeStone, Tumbled, Dry Stone®, Lueders®). 100 lineal feet of corners per box pallet. Thin Brick and Accessories are packaged in carry pack boxes.

UNIT WEIGHT

Shipping weight is approximately 8 to 12 pounds per square foot.

MAINTENANCE

Wash when needed. Do not use acids, high-pressure water or hard abrasives.

HARRISTONE VENEER WARRANTY

50-Year Limited Manufacturer's Warranty

New Harristone veneer will be provided, free of charge, for replacement of Harristone veneer that is determined to be defective. This warranty covers Harristone veneer only, and does not include labor or replacement costs. Harristone is not warranted against damage or staining caused by chemicals, airborne or waterborne contaminants, oxidation, settlement or movement of the substrate surface over which it is applied. This warranty is limited to original purchaser only.

Note: Colors may vary slightly from pictures in this brochure.
We suggest looking at a sample prior to making your final selection.
